Description The Wade's Wobbler is made from select kiln dried wood for buoyancy and consistent density. There are approximately six coats of paint for durability. For better fatigue resistant bends, 1/16" brass wire is used and is run through the lures.

### Wade's Custom Tackle 9" Wade's Wobbler - Musky Tackle Online

On the fishing lure, The dense wood has more mass at the nose and tail and will demonstrate more inertia or resistance to changes of direction. Example - take a length of dowel. Attach an ounce of lead to each end. Hold the dowel at the centre and twist your wrist back and forth fast. You will feel the inertia each time you change direction.
