The Influence Of Bilingualism On

tating influence of bilingualism on cognition. Peal and Lambert (1962) concluded that their 10-year-old French-English bilinguals performed better on tests of intellectual reasoning than did comparable monolinguals. They also found that the abilities of the bilinguals were more differentiated. This study, however,

The Influence of Bilingualism on Cognitive Strategy and ...

An attempt is made in the present paper to resolve inconsistencies between the results of recent studies which have reported that bilingualism is associated with positive cognitive consequences and earlier studies which suggested that bilingualism might adversely affect cognitive and scholastic progress.

ERIC - ED125311 - The Influence of Bilingualism on ...

This paper focuses on the advantages that bilinguals have over monolinguals when acquiring an additional language. Bilinguals are more experienced language learners and have potentially developed learning strategies to a larger extent than monolinguals. They also have a larger linguistic and intercultural repertoire at their disposal.
